Digital Resume

Skill Highlights

- .NET Core, .NET Framework
- ASP.NET MVC, Web API
- ADO.NET, Entity Framework
- HTML, CSS, Java Script, JQUERY
- TypeScript, Angular
- Playwright, Storybook
- TDD, BDD
- nUnit, MS Test, xUnit, SpecFlow
- Visual Studio, VS Code
- MS SQL Server, Oracle
- TFS, GIT, Jenkins
- Azure DevOps, CI/CD
- ARM, Bicep
- JIRA, Confluence, Bitbucket
- SonarQube, Dot Cover
- IIS, OWIN, Katana
- PowerShell, Besh, KQL

Certification

AZ-900 Microsoft Azure Fundamentals

AZ-204 Microsoft Azure Developer Associate

AZ-400 Microsoft Azure DevOps Engineering Experts

Education

Bachelor of Engineering, BPUT University
June 2008 — June 2012

Professional Summary

Experienced Full Stack Developer with over 11 years of expertise in Azure, .NET Framework, .NET Core, C#, ASP.NET MVC, Web API Core, Entity Framework Core, SQL Server, Angular, and related technologies.

- Extensive hands-on experience with Azure services, including Web Apps, Function Apps, Key Vault, Application Insights, SQL Server, Blob Storage, API Management, and Service Bus Queues.
- Proficient in implementing design patterns, SOLID principles, Test-Driven Development (TDD), Behavior-Driven Development (BDD), and Command Query Responsibility Segregation (CQRS).
- Knowledgeable in security concepts such as OWASP, OAuth, JWT, and TLS.
- Skilled in unit testing and test automation using NUnit, xUnit, MSTest, SpecFlow, and Mock frameworks.
- Expertise in database design and programming, including stored procedures, triggers, SQL queries, and views.
- Strong experience in developing Single Page Applications (SPA) using HTML, TypeScript, CSS, Bootstrap, and Angular.
- Proficient in designing and documenting RESTful APIs, utilizing tools like Swagger and Postman.
- Strong troubleshooting and debugging skills across various platforms.
- Experienced with version control systems including TFS, GIT, and Azure DevOps.
- Knowledgeable in Agile methodologies, software best practices, and CI/CD pipeline implementation.
- Familiar with JIRA and Confluence for task tracking and documentation.

Senior Associate at Cognizant

July 2016 – December 2021 & February 2023 – June 2024

- Collaborate closely with cross-functional teams, including BA, PO, and QA to gather requirements, define user stories, and deliver software solutions

- Collaborate with Architecture and Integrations team members to develop best practices and methodologies.

- Enforces coding standards, best practices, and quality assurance processes to ensure the delivery of high-quality, bug-free software solutions.

- Provides technical leadership and guidance to development teams, mentoring juniors

- Developed and maintained responsive web applications using Angular and TypeScript, ensuring high-quality user experiences and performance.

- Built and integrated .NET Core services and APIs, facilitating seamless communication between front-end applications and back-end systems.

- Leveraged Azure cloud services, including Azure Web Apps, Function Apps, and SQL Server, to enhance application scalability and reliability.

- Utilize CI/CD pipelines in Azure DevOps to automate the deployment process.

- Implemented OAuth 2.0 and JWT authentication, to secure web applications.

Team Lead at LTIMindtree

January 2022 to January 2023

- ➢ Actively participated in agile ceremonies, contributing to sprint planning, code reviews, and retrospective meetings to continuously improve team processes.

- ➢ Worked closely with the Product owner to get Features and PBIs over to the development team for implementation

- ➢ Develop clear, concise, well-tested code through pair programming and code reviews

- ➢ Created reusable custom components and features to be used by other developers

- ➢ Worked closely with UX/UI designers to implement accessible and visually appealing user interfaces, following best practices in responsive design

- ➢ Wrote unit tests for all the modules by mocking different layers

- ➢ Develop, test, and deploy web applications using .NET Core, Angular, REST API in Azure.

Software Developer at SISA

March 2014 to June 2016

- ➢ Designed and developed web applications using ASP.NET, C#, JavaScript, and SQL Server, following the full software development lifecycle.

- ➢ To write clean, scalable code using .NET programming languages

- ➢ Improve and maintain existing application

- ➢ To develop documentation throughout the software development life cycle (SDLC)

- ➢ Participate in day-to-day maintenance of several application systems in operation, including identifying and troubleshooting application issues.

Software Trainee at AGTSPL

From April 2013 to January 2014

- ➢ Designed and developed web applications using ASP.NET, C#, JavaScript, and SQL Server, following the full software development lifecycle.
